NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate use of gastric lavage. Have product container or label with you when calling a Poison Control Center or doctor for treatment advice.

See back panel for additional
precautionary statements.

EPA Reg No: 79817-3
EPA Est No. 79817-CA-001
Unit Part # 101058
Net weight: 0.88 oz (25 grams)

Mineral Technology

PoolRx Sundance® spa unit

This product is intended for use with Sundance® Spa hot tubs. The spa unit contains a proprietary blend of minerals that continuously and effectively eliminate algae. The specially treated alloy cylinder is packed with PoolRx mineral formulation. These minerals immediately dissolve out of the cylinder and form a stable residual throughout the spa water. The minerals eliminate the algae while freeing up low levels of chlorine to be more active and productive in the water. During the spas filtration process the minerals are rejuvenated every time they return and pass through the cylinder. PoolRx minerals works synergistically with a constant low level of chlorine. Residential (0.5 - 1.0 ppm) Commercial (1.0 - 5.0 ppm)

DIRECTIONS FOR USE

It is a violation of federal law to use the product in a manner inconsistent with its labelling.

- Clean your filter before adding the spa unit
- Install the spa unit into the Sundance® Spa filter gate chamber. If installing in a non-Sundance® Spa, place the spa unit in the skimmer basket or place the unit on the bottom of your spa.
- The sundance spa unit should be added when the spa has a full run cycle to ensure the minerals dissolve out of the unit and through the filter into the whole body of water
- The spa should turn over its water volume at least 1.5 times per day

Maintenance

Maintain normal chemistry:

Chlorine (ppm)	0.5ppm - 1.0
pH	7.2 - 7.8
Alkalinity	80 - 120

Replace the PoolRx spa unit every time the spa is drained or every 4 - 6 months (this will depend on bather load and splash out). If you see algae coming back or the water looks a little dull you know it's time to replace your spa unit.

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals.

DANGER: Corrosive. Causes irreversible eye damage Harmful if swallowed. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Remove and decontaminate clothing before reuse.
